

## SOCIETY FOR THE STUDY OF AMPHIBIANS AND REPTILES

THE SOCIETY FOR THE STUDY OF AMPHIBIANS AND REPTILES, a not-for-profit organization established to advance research, conservation, and education concerning amphibians and reptiles, was founded in 1958. It is the largest international herpetological society, and is recognized worldwide for having the most diverse program of publications, meetings, and other activities. Seven publication series, each with a different function, are issued by the Society. Members receive pre-publication discounts on SSAR books and a 10% discount on all society books in print (order at [SSARbooks.com](http://SSARbooks.com)).

The *Journal of Herpetology* is a peer-reviewed quarterly that publishes articles on all aspects of the biology of amphibians and reptiles, with emphasis on behavior, conservation, ecology, education, evolution, morphology, physiology, policy, and systematics. Beginning 2011, the *Journal of Herpetology* is published in 8.5" x 11" format with additional color throughout and approximately 550 pages/volume.

*Herpetological Review* is a peer-reviewed quarterly that publishes articles and notes, as well as book reviews, institutional features, commentaries, regional and international herpetological society news, and letters from readers directed to the field of herpetology. Beginning 2011, *Herpetological Review* features full color throughout and approximately 550 pages/volume.

SSAR Announces a Reprint of the Great Herpetological Classic

# *Erpétologie Générale* *ou Histoire Naturelle Complète des Reptiles*

This full-size facsimile is absolutely complete and carefully edited for clarity. A new introduction by Roger Bour (Paris) is an in-depth review of the book (including exact publication dates) with new biographies of the three authors. A comprehensive index to the scientific names, missing in the original book, has been added. A generous subsidy from Ronald A. Javitch of Montréal made this reprint possible and kept the price very low.

Nine volumes (bound in 5) of text (almost 7000 pages), plus an atlas of 120 plates (each in colored and uncolored states). Clothbound.

Regular price: \$275. **Special price to SSAR members, \$225**, if ordered before January 31, 2013.
